Why Are Improvements Needed?

Over 100,000 vehicles per day used the Selmon Expressway in 2022. By 2046, that number is expected to grow to 167,000 vehicles per day. Portions of the Tampa Bay region contributing to traffic on the Selmon Expressway are expected to grow by 85% during the same time period. Traffic will continue to get worse if nothing is done.
No Build Alternative

Advantages
• No new expenditure of funds
• No inconvenience during construction

Disadvantages
• Does not meet Purpose & Need
• Continued degradation of traffic conditions
• Increased congestion on surrounding road network

Build Alternative Benefits

**Improved Capacity**
- Serves an additional 28,000 daily trips
- Reduces travel times (48% reduction in the morning)

**Improved Ramps**
- More efficient traffic operations
- Improved bike/ped crossings at ramp terminals

**Improved Safety**
- 25% reduction in crashes
- Reduction of rear end crashes
- Reduction of fatal and serious injuries
Environmental Considerations
